## STEP 1 CHOOSE YOUR MODEL

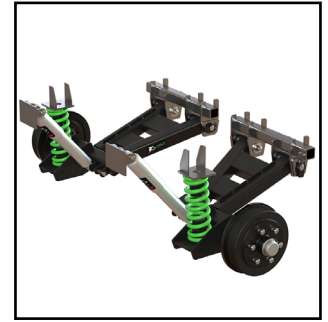

WIS2.8TT  
2800KG Rating Tandem

WIS4.0TT  
4000KG Rating Tandem

WIS2.2TS  
2200KG Rating Single

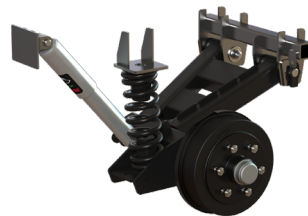

WIS1.6TS  
1600KG Rating Single

## STEP 2 CHOOSE YOUR COLOUR

Wolf Classic

Carbon Black

KYB Red

Sunrise Orange

Wolf Green

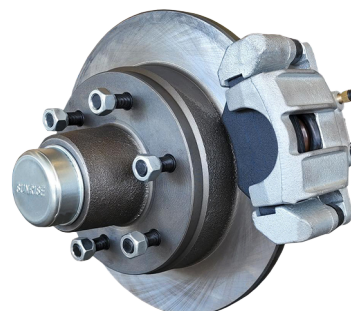

Marine Blue

## STEP 3 CHOOSE YOUR BRAKE TYPE

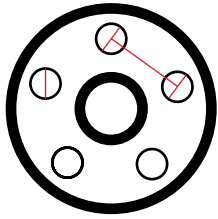

Electric Drum Brake OFF-ROAD

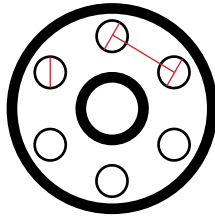

Hydraulic Disc Brake

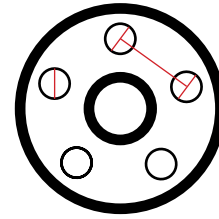

## STEP 4 CHOOSE YOUR STUD PATTERN

Landcruiser 5 Stud

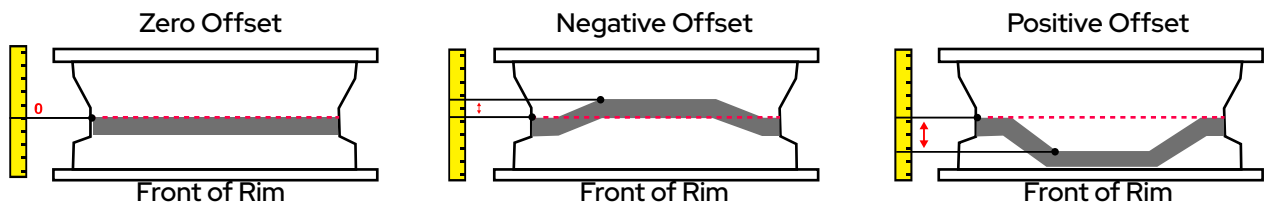

Landcruiser 6 Stud

Ford 5 Stud  
(Only 10" Brakes)

Stud Pattern	Stud PCD	Stud Distance	Common Stud Size
Landcruiser 5 Stud	5 x 150mm	88.20mm	9/16"
Landcruiser 6 Stud	6 x 139.7mm	69.85mm	1/2"
Ford 5 Stud	5 x 114.3mm	67.18mm	1/2"

## STEP 5 TELL US YOUR WHEEL OFFSET

**There are three common types of wheel offset you may encounter:**

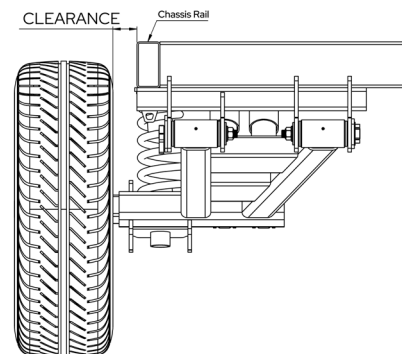

Place the straight edge across the back of the wheel so that it spans the entire width.

Measure from the mounting surface to the centerline of the wheel. If the mounting surface is towards the outside (front) of the wheel, it's positive offset. If it's towards the inside (back), it's negative offset.

The measurement is typically in millimeters.

## STEP 6 TELL US YOUR CLEARANCE REQUIRED

The recommended clearance for chassis to tire distance is 50mm, measured from the outer wall of the chassis to the edge of the tire.

# ORDER FORM

Code	WIS1.6TS	WIS2.8TT	WIS2.0TS	WIS4.0TT
