

THE POWER OF

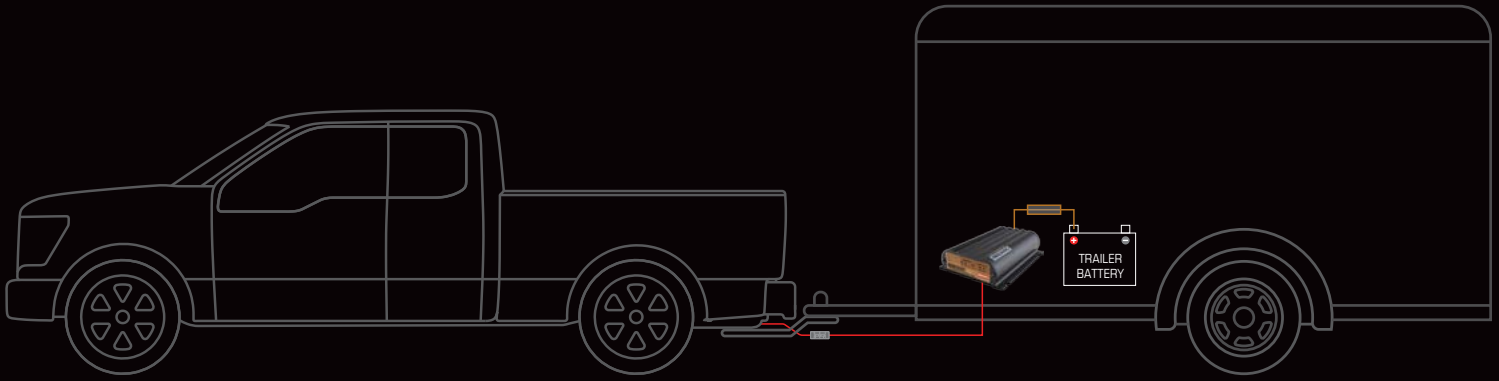

REDARC

BCDC TRAILER

12A VEHICLE TO TRAILER CHARGER

POWER WITHOUT IDLING.

7 PIN CONNECTION

Connect and charge directly through your trailer plug for easy installation into any typical trailer battery setup.

SEAMLESS INTERGRATION

Compatible with all common battery makes and chemistries, including standard lead acid, calcium, gel, AGM and Lithium LiFePO₄.

FUSE PROTECTION

Controls power to avoid overloading 7 pin connectors and protect your vehicle's wiring and fuses.

MAXIMIZE BATTERY LIFE

Protect, maintain and extend your battery's health during every use. Featuring an inbuilt isolator and three step charging process to ensure your batteries receive the right amount of power.

BCDC TRAILER

12A VEHICLE TO TRAILER CHARGER

Provide more charge to your batteries, ensuring when you arrive at your destination, you do so with a fully charged battery.

Keep your trailer's battery fully charged while on the move eliminating the need for unnecessary idling and reducing the dependence on shore power charging.

This 12V DC to DC Charger has an input current limit specifically designed to allow you to connect directly through your trailer's 7-way plug and existing vehicle wiring for easy installation.

Ideal battery charger for trailers - such as dump trailers, boat trailers, car trailers, liftgate trucks and camper vans - with electrical equipment and accessories (for example, hydraulic pumps, winches and inverters).
