

STANDARD TRUCK WINCH

SPECIFICATION FOR CLIP-ON AND SLIDE-ON

* Clip on Winch with and without strap

* Slide on Winch with and without strap

Clip-on Standard Truck Winch

Clip-on standard truck winches are primarily fitted to truck tie rails with the benefit of a high pretension with less effort for easy operation making them an effective way to restrain heavy loads for transport applications.

- Lashing capacity of 3000kg for bare winch, 2500kg for webbing.
- Manufactured from medium grade hi-tensile steel gold passivated for corrosion protection.
- Marked with lashing capacity, batch numbered and branded Austlift for traceability.
- Batch test certificate available upon request.

Slide-on Standard Truck Winch

Slide-on standard truck winches are primarily fitted to a winch track with the benefit of a high pretension with less effort for easy operation making them an effective way to restrain heavy loads for transport applications.

- Lashing capacity of 3000kg for bare winch, 2500kg for webbing.
- Manufactured from medium grade hi-tensile steel gold passivated for corrosion protection.
- Marked with lashing capacity, batch numbered and branded Austlift for traceability.
- Batch test certificate available upon request.
