TJE4000 ELECTRIC JACK STAND

FEATURES

The SUNRISE electric jack offers a 4,000 lb lifting capacity and 22" range. Designed for trailers, RVs, campers, and more. Easy push-button operation saves time and effort. Built with heavy-duty steel, zinc plating, and powder coating for durability.

- Onboard LED courtesy light makes nighttime setup quicker and simpler.
- Simplifies camp setup with a built-in level strategically located for ease of use.
- This jack features an emergency manual override winding handle in the event there is no power supplied.
